Downhill skiing and snowboarding, like many other sports, contains inherent risks including, but not limited to the risk of personal injury, including catastrophic injury, or death, or property damage, which may be caused by variations in terrain or weather conditions; or, surface or subsurface snow, ice, bare spots or areas of thin cover, moguls, ruts, bumps; or other persons using the facilities; or, rocks, forest growth, debris, branches, trees, roots, stumps; or, other natural objects or manmade objects that are incidental to the provision or maintenance of a ski

facility in New York State. New York law imposes a duty on you to become apprised of, and understand, the risks inherent in the sport of skiing, as set forth by New York State, so that you may make an informed decision of whether to participate in skiing notwithstanding the risks. New York law also imposes additional duties upon you, to which you must adhere, for the purpose of avoiding injury caused by any of the risks inherent in skiing. If you are not willing to assume all of these risks and abide by all of these duties, you must not participate in skiing at these ski areas.
