LET THERE BE LIGHT

200 NEW LEDs

A major hill lighting project is underway at press time. 200 energy efficient LED light fixtures are being installed, dramatically improving trail lighting at both Song and Labrador.

Made possible by a NYS energy initiative administered by National Grid, these new fixtures will not only enhance the night skiing and snowboarding experience, but significant energy savings will result keeping thousands of tons of CO2 out of our atmosphere. We call that a win, Win, WIN!

National Grid's commitment to efficient energy utilization is good for us all; and it's especially good for the longevity of our favorite winter sports, skiing and snowboarding. SkiCNY would like to express its gratitude to National Grid's management, and especially their line crews, for their continuing efforts to provide safe and reliable electricity to all of us here in CNY.

Two New 'Pisten Bully' Groomers For 2023-24

2023-24 Pisten Bully Stage V 400

SkiCNY's million \$\$ plus improvement campaign continues.

While an additional Piston Bully Edge is on order for 2022-23, two brand spanking new Piston Bully Stage V 400's have been ordered and will be delivered prior to the 2023-24 season.

These groomers are made in Germany and due to ongoing global supply chain issues as well as general uncertainties in the European Union, delivery this season was impossible.

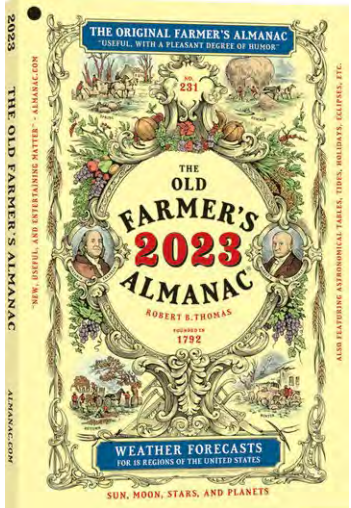

These new state-of-the-art groomers will replace a couple older machines and their new Tier V engines will realize significant fuel savings thereby substantially reducing emissions. And of course, less fuel means less greenhouse gasses. NoX emissions and particulate matter are reduced to near zero.

Of course, what really counts is the finished ski slope. These groomers are billed as, "The specialist for slope and snow-park preparation." They come equipped with an advanced Alpine Flex Tiller providing a seamless corduroy finish, perfectly groomed snow on the open slopes, and in the terrain park, ensuring hours of skiing and snowboarding fun.

QUOTE OF THE DAY

"You don't quit skiing when you get old... You get old when you quit skiing!" - Unknown

THE ORIGINAL FARMER'S ALMANAC
"USEFUL, WITH A PLEASANT DEGREE OF FUN"

THE OLD FARMER'S ALMANAC
2023
ROBERT B. THOMAS
1792
WEATHER FORECASTS
FOR 16 REGIONS OF THE UNITED STATES
SUN, MOON, STARS, AND PLANETS

2022-23 Shake, Shiver & Shovel

For winter 2022-23 *The Old Farmer's Almanac*, first published in 1792, is predicting that the "eastern half of the U.S. should brace for potentially record-breaking cold..." It's gonna be a GREAT ride (pardon the pun)... So get in, sit down, shut up and hang on CNY! The *Almanac*, famous for its long-range weather predictions, says Old Man Winter is going to hammer us folks in the Northeast with very cold and very snowy conditions... Gobs of Lake-effect... Can you hear us smiling? Our State-of-the-Art snowmaking systems will exploit good snowmaking temperatures and coupled with frequent storm cycles, CNY will enjoy some of the best skiing and riding in recent memory! The *Old Farmer's Almanac* is published in Dublin, NH.

Arise & Ski Returns To Labrador

Disabilities shouldn't stop anyone from skiing! ARISE & Ski is here for you. They are one of the longest running premier adaptive winter sports programs in CNY, dedicated to ensuring that anyone who wants to can participate in winter sports.

Each year, ARISE & Ski provides ski lessons to individuals with various disabilities, including spinal cord injuries, developmental disabilities, sensory impairments and many others. They provide expert instruction and adaptive equipment to ensure that all skiers have a safe and fun experience on the mountain. More than 100 volunteers devote their time to training and lessons.

SkiCNY wholeheartedly supports this inclusive winter recreation program. For more information, Google "Arise And Ski" or call Labrador Mountain.
