2023-2024 WEATHER FORECAST: WINTER WONDERLAND!

The 2024 Old Farmer's Almanac predicts snow, seasonable cold, and all of winter's delights! This winter's forecast will surely excite snow bunnies and sweater lovers alike, promising a lot of cold and snow across North America!

Snowfall will be above normal across most snow-prone areas. Get prepared for oodles of fluffy white throughout the season! Keep a shovel at the ready early, especially in the Northeast and Midwest,

where snow will arrive beginning in November with storms, snow showers, and flurries continuing through the start of spring.

Along with above-normal snow, we'll see normal to colder-than-normal temperatures in areas that typically receive snow. Expect just the right amount of chill in the air for an afternoon of adventurous snow sports or enjoying a big ol' mug of hot cocoa by a crackling fire. **!! LET IT SNOW BABY !!**

Two New Groomers For 2023-24

Modern Fleet Grows To Four

SkicNY's multi-million dollar improvement campaign continues. Two brand spanking new Piston Bully Stage V 400's have been ordered and will be delivered prior to the 2023-24 season.

These new state-of-the-art groomers will replace a couple older machines and their new Tier V engines will realize significant fuel savings thereby substantially reducing emissions. And of course, less fuel means less greenhouse gasses. NOx emis-

sions and particulate matter are reduced to near zero.

Of course, what really counts is the finished ski slope. These groomers are billed as, "The specialist for slope and snow-park preparation." They come equipped with an advanced Alpine Flex Tiller providing a seamless corduroy finish, perfectly groomed snow on the open slopes and in the terrain park, ensuring hours of skiing and snowboarding fun. **!! FRESH CORDUROY !!**

NEW CLUB HOUSE NORTH NEW
New Locker Room At Labrador

The old Labrador locker room in the north end of the Main Lodge has been re-named, re-freshed, re-modeled, re-configured, and re-furnished! It is now a private up-scale locker room affectionately known as "**CLUB HOUSE NORTH**".

It comes with 12", 15", and 18" slope topped lockers that should accommodate skis up to 200cm +/- . It has a kitchen, a unisex lavatory, a sitting area with a TV and a gas fireplace, and a slope side deck,

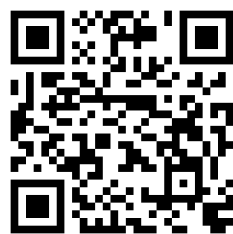

all private, limited to those locker holders and their guests. Prices for these seasonal lockers vary by width of the lockers and date purchased. You provide your own lock.

We're very excited about this new Labrador locker area. With its central location convenient to the slopes, the Cafe, the Puffin Bird, and the parking area this new locker room is certain to sell-out fast. **SO RESERVE YOUR SLOT NOW!**

Good Dates Are Going Fast

Song and Labrador Mountains' management sincerely thanks our members of the National Ski Patrol who, day in and day out, are there to help make the sport of skiing and snowboarding safe for everyone involved.

Your members and your organization continue to unselfishly provide the skiing and snowboarding public with expert emergency care, rescue, and education.

Management further encourages those enjoying the slopes and trails of the Song Mountain and Labrador Mountain to lend your support and understanding to our diligent ski patrol.

All Our Snow Is Made Right Here In CNY
"EPIC PASS" = EPIC LINES :(

LET THERE BE LIGHT

Another 200 NEW LEDs

A two-year hill lighting project continues for 2023-24. Two hundred energy efficient LED light fixtures last winter, and another two hundred this winter. The result; dramatically improved trail lighting at both Song and Labrador.

Made possible by a NYS energy initiative administered by National Grid, these new fixtures will not only enhance the night skiing and snowboarding experience, but significant energy savings will result keeping thousands of tons of CO2

out of our atmosphere. We call that a win, Win, WIN!

National Grid's commitment to efficient energy utilization is good for us all; and it's especially good for the longevity of our favorite winter sports, skiing and snowboarding. SkicNY would like to express its gratitude to National Grid's management, and especially their line crews, for their continuing efforts to provide safe and reliable electricity to all of us here in CNY. **!!
